| | AGRIPOTASH 1 gal/acre | | | | | OR BUD BUILDER 5 - 10 lbs/acre | | | |

■ Soil applied products ■ Foliar applied products

- Apply YaraVita foliar products as needed based on Megalab leaf tissue analysis.
- Potassium should be applied as potassium sulfate (K₂SO₄) to minimize the potential for chloride and salt injury.

- The information provided is accurate to the best of Yara's knowledge and belief. Any recommendations are meant as a guide and must be adapted to suit local conditions. Consult your local Yara agronomist for specific nutrient application rates.

- For more information contact your local Yara representative. Yara North America customer service 1-800-234-9376

Megalab™

CHOOSING THE RIGHT PRODUCTS. In developing the correct program of products, soil and tissue analysis should always be used to help make decisions on product application. The MEGALAB™ program transforms nutrient analysis results into practical, cost effective recommendations.

The MEGALAB™ network now extends across the United States providing customized interpretation and advice. MEGALAB™ net is accessible over the internet 24 hours a day, 365 days a year providing the ultimate in customer service based analysis.
