

# Reduce your emissions and Grow The Future with YaraBela AXAN

## Did you know?

UK Agriculture MUST  
reduce ammonia  
emissions

Fertilizer accounts for  
23% of emissions

Nitrate fertilizers are  
the lowest emitters

## Why use YaraBela AXAN?

Nitrate based, giving the lowest  
ammonia emissions\*

A mineral fertilizer, therefore no added  
chemical inhibitor required

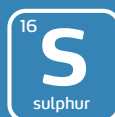

## Trials show that

Nitrates have half  
the emissions of  
Urea+Inhibitor

Sulphur can rapidly  
degrade some  
urease inhibitors

During storage urease  
inhibitors degrade

\* DEFRA NT2605
